ChartInsight — a high-level intelligence layer for your case file.

INSIGHTFUL MEDICAL INTELLIGENCE

Stop digging through paperwork to build winning cases. ChartInsight goes beyond simple indexing to reveal the clinical context with every page — ensuring you never miss the critical details that decide litigation outcomes. Concise narrative summaries and chronologies distill years of medical history into customizable, actionable digest. Create chatbot queries for everything from permanent disability assessment that identify and extract whole person impairment (WPI) ratings to AMA guide citations that accelerate settlement valuations.

Advanced Control Features

The "Focus" Feature

Direct the software to prioritize exactly what matters most. Tell ChartInsight to focus on specific conditions — such as a "right shoulder rotator cuff" — to ensure the most relevant evidence is surfaced immediately.

Customizable Templates

Standardize your firm's work product. Choose from pre-set outputs like Vitals, Timelines or Medication Lists, or build your own custom templates to match your specific workflow.

"Ask It Anything" Interactive Chat

Search or chat within your results to find answers instantly. Query specific date ranges or ask complex questions about the medical history. The software returns precise answers with direct page references for immediate verification.

Effortless Workflow

- Zero formatting, drag-and-drop uploads
- Easy access from any browser on any device
- Instant notifications when summaries are ready for review

PROVEN PERFORMANCE & ACCURACY

Chart*Insight* is built on a foundation of rigorous standards and has been tested against millions of pages of real-world medical data.

- Make decisions with confidence, thanks to training on more than 300,000 actual records.
- Instantly jump from a summary point to the original record page for one-click verification.
- Extractive summaries pull verbatim excerpts directly from the source, protecting you from hallucinations common in other AI tools and provide legally defensible evidence with evidentiary integrity.
- Chart*Insight* has securely and successfully processed 13.3 million pages and summarized more than 2.1 million appointments.

Speed & Efficiency

Stop waiting weeks for manual summaries. Chart*Insight* delivers professional results at the speed of your practice. Reduce your overhead by more than 50% compared to traditional manual indexing options.

Enterprise-Grade Security

We protect your most sensitive data with industry-leading protocols.

- Security first, always. Fully HIPAA compliant with all healthcare privacy regulations.
- Data never leaves a secure environment — end-to-end encryption and self-hosted models.

Simple, Transparent Pricing

No long-term contracts or hidden fees. Pay only for what you process.

Service	Rate
Standard Rate	\$0.15 per page processed
